**Provide support to increase resilience in high-risk communities through therapeutic intervention with (18 and old years) adult victims of Gender-Based Violence (GBV) and Victims of Crime (VOC) and their family members, significant others on an individual, couple, family and group level and to alleged perpetrators.**

**Victims means any person who has suffered physically, emotional, spiritual, or psychological harm because of violence crime, either committed or directed to him or her or his or her family members, irrespective of whether any perpetrator is identified, apprehended, and prosecuted or convicted. The project area will be Delft, Elsie's River and surrounding areas.**

## **Task Summary**

- **Conduct therapeutic interventions to victims and their family members who affected and exposed to GBV and Crime**
- **Provide emotional and practical support to victims, their families, and or significant others.**
- **Offer referral services to victims and their family members to professionals that can aid in addressing the needs of victims and family members.**
- **Promote the rights and responsibilities of victims to aid in ensuring that ongoing victimization is prevented (VSS Bill)**
- **Develop and implement recommended interventions by providing continuous support, counselling, and guidance to affected individuals, families, groups, and communities.**
- **Monitor and evaluate the effectiveness of interventions.**
- **Identify amended interventions to address the conditions of Gender-Based Violence and Crime**
